

Yuhao Tao

born on August 23, 2000
in Shanghai

has passed the Bachelor Examination

in accordance with the provisions
of the syllabus for Mechanical Engineering

and has obtained the overall mark with distinction (1.1)

Bachelor Thesis		Credits	Mark
Topic of Bachelor Thesis	Modeling and simulation of deformable Kolmogorov-sized bubbles and droplets in turbulent multiphase flows	15.00	very good (1.0)
Examiner	Univ.-Prof. Dr.-Ing. Wolfgang Schröder		

The degree program has been completed within the regular period of study.

Aachen, July 18, 2023

Chair of the Examination Board

Univ.-Prof. Dr.-Ing. Dr. h. c. (UPT) Burkhard Corves

ECTS-Grading Table

Course of Study: Mechanical Engineering
Degree: Bachelor of Science RWTH Aachen University (B. Sc. RWTH)
Acquisition period: April 1, 2020 to March 31, 2023

Total number of degrees conferred: 1885

Central Examination Office

Grade	Number	Percentage (%)	Percentage sum (%)	Grade range
1.00	1	0.05	0.05	
1.10	3	0.16	0.21	
1.20	6	0.32	0.53	very good *
1.30	11	0.58	1.11	
1.40	23	1.22	2.33	
1.50	31	1.64	3.98	
1.60	39	2.07	6.05	
1.70	38	2.02	8.06	
1.80	40	2.12	10.19	
1.90	42	2.23	12.41	
2.00	66	3.50	15.92	good
2.10	72	3.82	19.73	
2.20	96	5.09	24.83	
2.30	90	4.77	29.60	
2.40	114	6.05	35.65	
2.50	110	5.84	41.49	
2.60	146	7.75	49.23	
2.70	158	8.38	57.61	
2.80	184	9.76	67.37	
2.90	187	9.92	77.29	
3.00	175	9.28	86.58	satisfactory
3.10	121	6.42	93.00	
3.20	66	3.50	96.50	
3.30	47	2.49	98.99	
3.40	11	0.58	99.58	
3.50	6	0.32	99.89	
3.60	2	0.11	100.00	
3.70	0	0.00	100.00	
3.80	0	0.00	100.00	sufficient
3.90	0	0.00	100.00	
4.00	0	0.00	100.00	

Sum: 1885

* Overall grade "with distinction" if the final thesis is awarded a 1.0 and the overall grade is 1.3 or better

Yuhao Tao, born on August 23, 2000 in Shanghai
has achieved the following individual results:

	Credits	Mark
Fundamentals of Engineering Sciences	77.00	very good (1.1)
Introduction to Mechanical Engineering	1.00	very good (1.0)
Mechanics I	7.00	very good (1.0)
Mechanics II/III	15.00	very good (1.0)
Machine Design I and Introduction to CAD	4.00	good (1.7)
Machine Design II	5.50	very good (1.0)
Machine Design III	5.50	very good (1.3)
Thermodynamics I/II	9.00	very good (1.0)
Materials Science I, II	10.00	very good (1.4)
Fluid Mechanics I	7.00	very good (1.0)
Heat and Mass Transfer I	7.00	very good (1.0)
Basics of Electrical Engineering for Mechatronic Systems	6.00	very good (1.0)
Fundamentals of Mathematics and Natural Sciences	33.00	very good (1.2)
Chemistry	3.00	satisfactory (2.7)
Physics	4.00	good (2.0)
Mathematics I	7.00	very good (1.0)
Mathematics II/III	14.00	very good (1.0)
Numerical Mathematics	5.00	very good (1.0)
Fundamentals of Systems	21.00	very good (1.1)
Computer Science in Mechanical Engineering	5.00	good (1.7)
Measurement Laboratory	3.00	passed
Simulation Methods in Mechanical Engineering	6.00	very good (1.0)
Automatic Control	7.00	very good (1.0)
Fundamentals of Civil Society	10.00	very good (1.1)
Communication and Organisation Development	3.00	passed
<i>The degree program has been completed within the regular period of study. Upon request, the grade for this module can be excluded from the overall grade calculation. The module is graded with satisfactory (3.0).</i>		
Business Engineering	3.00	very good (1.3)
Quality and Project Management	4.00	very good (1.0)
Occupational Field Product Development	30.00	very good (1.1)
Electromechanic Motion Technology	5.00	very good (1.3)

Yuhao Tao, born on August 23, 2000 in Shanghai
has achieved the following individual results:

	Credits	Mark
Manufacturing Technology I	4.00	very good (1.0)
Fluidpower - Systems and Components	6.00	very good (1.0)
Fundamentals of Dynamics of Machines and Structural Dynamics	6.00	very good (1.0)
Basics of Product Development	6.00	very good (1.3)
Industrial Statistics	3.00	very good (1.0)
Project Work	10.00	very good (1.0)
Project Thesis	10.00	very good (1.0)
Simulation of electric current assisted sintering of oxide ceramics	10.00	very good (1.0)
Internship	14.00	passed
Internship	14.00	passed

This certificate has also been issued in a German version.

A credit point represents an estimated workload of approximately 30 hours.
